

AfriTreasures Advisory

Specialist market research and digital process advisory for South African organisations, delivered as fixed-scope, fixed-price, fixed-date engagements.

OUR TWO SPECIALISMS

- **Market Research and Intelligence.** One market, sector, corridor or competitor set, sized, mapped and read for a decision. Market Intelligence Brief, 10 working days.
- **Digital and AI Process Review.** One function, such as accounts payable or procurement, measured as it runs today, automation and AI options ranked by payback, and a 90-day roadmap. 15 working days.

THE WAY IN

Rapid Scan. One question in either specialism, answered in 6 to 8 pages with a recommendation, in 5 working days.

ALSO AVAILABLE

Business and investment analysis of a single decision; decision dashboards built on your own data; research and analysis capacity for consultancies on contracts they have won, including joint bids.

HOW WE WORK

A documented method, the same on every engagement: (1) a one-page frame agreed in writing before work starts; (2) sources logged in a dated register you keep; (3) a midpoint status note; (4) analysis built from our written templates; (5) every deliverable checked twice before you see it; (6) a walkthrough, one revision round, and a quarterly note afterwards on what has changed in your market.

OUR PROMISES

Reply within one working day. Dates met, or 10 percent off your next engagement. Fixed price: scope changes, price does not. Confidential by default. Delivered remotely from Midrand; meetings in person across Gauteng.

WHO WE ARE

AfriTreasures Group (Pty) Ltd is a South African company registered with the CIPC in July 2026, owned and directed by its founder, Lebogang Mokgosi (BBA, MSc International Business Management, MBA International Business), with a background in research, strategy and investment.
