HOW WE WORK

A documented method, the same on every engagement: (1) a one-page frame agreed in writing before work starts; (2) sources logged in a dated register you keep; (3) a midpoint status note; (4) analysis built from our written templates; (5) every deliverable checked twice before you see it; (6) a walkthrough, one revision round, and a quarterly note afterwards on what has changed in your market.

OUR PROMISES

Reply within one working day. Dates met, or 10 percent off the next engagement. Fixed price: scope changes, price does not. Confidential by default.

**LEADERSHIP**

Lebogang Mokgosi, founder and director. BBA; MSc in International Business Management; MBA in International Business. Research, strategy and investment background spanning market analysis, investment evaluation and business development across African and European markets. Leads every engagement personally and stays the client's single point of contact.

DELIVERY CAPABILITY

The division runs on a written method and one template set and quality standard, which lets a small firm deliver consistently and on time. For larger scopes we work with established consultancies, as subcontractor or joint bidder.
